ALICE HELENA A.

B.SC. COMPUTER SCIENCE STUDENT

Trichy, Tamil Nadu | +91 6381418229 | helenaalice725@gmail.com

CODE / DATA / MOTORSPORT / CYBERSECURITY

LinkedIn ↗

SKILLS

Programming & Cloud

C, Python, C++, SQL, AWS

Web Technologies

HTML, CSS

Core Competencies

Data Structures & Algorithms, Problem Solving, Pseudocode, Programming Fundamentals

PERSONAL STRENGTHS

Data-driven problem solving
Willingness to learn
Creative approach to UI design
Curiosity about emerging technology
Interest in real-world applications

INTERESTS

Motorsport telemetry & data analysis
Cybersecurity
Game & application development
Automotive & racing technology
Editing & designing

LANGUAGES

English | Tamil
Learning Italian & Latin

PROFILE

I'm a B.Sc. Computer Science student exploring code, data, motorsport and cybersecurity. My goal is to become a Telemetry Data Analyst in racing, turning performance data into useful insights. I enjoy creating games and applications, strengthening my programming skills, and exploring systems and network security. Editing, design and learning languages keep my curiosity moving beyond the classroom.

EDUCATION

Bishop Heber College | 2026-present

B.Sc. Computer Science | Expected graduation: 2029
Coursework: Problem Solving using C, Data Structures and Algorithms, Programming and Problem Solving, Computer Science Fundamentals.

St. Little Flower Matriculation Higher Secondary School, Kattur | 2013-2025

12th Standard: 86% overall, 100 in Computer Science.
10th Standard: 93% overall.

EXPERIENCE

Laughablehaha Community | Roblox Play Tester (QA) | 2025

Identified, reproduced and documented bugs and physics engine glitches. Executed multiplayer test cases to evaluate stability and quality of builds and updates.

PROJECTS

Student Management System | C

Built a menu-driven application to manage student profiles, courses, attendance and marks. Applied structures, searching, sorting, pointers and file handling.

Motorsport Portfolio | HTML, CSS

Designed a racing-inspired personal portfolio exploring the connection between programming, data and automotive technology.

Brunplayer7 | App Development

Designed and deployed an interactive music player application.

ACADEMIC SEMINAR

Application of Jacobian in Robotics

Explored a two-link robotic arm, bottle picking, velocity calculation, trajectory planning, robot control and singularity analysis.
